Free of charge value add

<< Statistics - Special Services

Exclusive offer for all OECD iLibrary orders including the Statistics package:

OECD's special statistical retrieval engine allows comfortable data retrieval and download. DSI's special services offer a second, completely independent retrieval platform with some very powerful tools beyond OECD.Stat:

Gather Data Easily

DSI's OECD.Stat services offer alternative internet solutions to provide intelligent access to all OECD's statistical time series, added by some valuable tools for a more powerful retrieval, statistical ad hoc analysis and graphing applications:

- simultaneous search across all databases by single or combined keyword search, supported by an online library to avoid misspellings or unpromising requests;
- hierarchical breakdown for an easy step by step data access by choosing the source, the subject, the country, the indicator;
- by treeview, the state of the art data extraction at database level by defining the requested data in detail first, e.g. the specific country, subject, indicator and/ or unit.

Analyze Data Quickly

Working with data is simple using the implemented statistical analysis tools, available on the level of data tables by default:

- immediate data export into an universal format for external analysis
- statistical standard evaluations such as mean, standard deviation, moving average, growth rate, lags
- forecasts by trend prognoses
- implemented calculation utilities for time series operations

Present Data Effectively

DSI's data navigator for DSI's Statistical Compendium Series has a powerful graphics engine to create dynamic charts (for instance: line plots, pies, columns, pyramids or nets).

It allows art works and editing, and final charts can be loaded easily for direct implementation into reports or electronic publications.

Usage Statistics (ip controlled internet)

Usage statistics will be generated on a monthly basis and could be monitored online or send by e-mail upon request.

<< price list 2011 and order form

All prices shown here do not include VAT and customs duties.

For all orders from Germany or orders from inside the European Union without showing the correct VAT-ID we have to add 19% VAT.

I/ We would like to order as follows
